Project Manager & SEO Content Writer

Lahore, Pakistan • umihahashmi@gmail.com • +92 303 741 7876 • [linkedin.com/in/umiha-ans](https://www.linkedin.com/in/umiha-ans) • [Portfolio](#)

PROFILE

5+ years of content writing and SEO expertise. Skilled in creating high-ranking blog content, landing pages and service pages optimised for SEO, AEO and GEO. Expert in keyword research, LSI keyword analysis and competitor content analysis. Experienced in using prompt engineering and AI tools to accelerate production while maintaining quality and rankability. Promoted to Project Manager after two years, managing large-scale content operations and team coordination.

CORE SKILLS

- Project Management** — content operations, workflows, team coordination
- SEO, AEO & GEO** — on-page, answer and generative engine optimisation
- Competitor Analysis** — SERP research, content benchmarking
- Social Media Content** — calendars, campaign copy, publishing cadence
- Content Writing** — blogs, landing, service and transactional pages
- Keyword Research** — keyword and LSI analysis, content gap mapping
- AI Production** — prompt engineering, AI-assisted content, quality control
- Quality Standards** — editorial standards and review workflows

EXPERIENCE

- Project Manager**
eWebCraft

2023 — Present

 - Promoted after two years as a writer; now run large-scale content operations alongside a hands-on writing and optimisation load.
 - Coordinate content projects end to end and manage the workflows behind them.
 - Hold output to consistent quality standards across writers and client accounts.
 - Ensure SEO, AEO and GEO requirements are applied consistently across published work.
- Content Writer**
eWebCraft

Jan 2021 — 2023

 - Wrote blog posts, landing pages, service pages and transactional content optimised for search rankings.
 - Conducted keyword research and LSI keyword analysis to identify ranking opportunities and content gaps.
 - Performed competitor content research to establish what ranks and why before writing.
 - Introduced prompt engineering and AI-assisted production to create quality content faster.
